Next week i'd send another letter re: MEA's report on the 2nd noise committee. As we were eating we discussed the

need to set up a process that provides a written response to people and a report to us on the resolution of the

problem. i'm going to keep harping on this and Ed is very committed to it as well, i believe. i made a point on the

record of saying we need to respond to people not just ones who come to or write to Council, but ones who go to or

write to the other boards with their concerns/complaints.... i didn't say much about the airport because it is a

waste of time responding to Simmonds. no one cares what he says. we got what we want which is to have Rafferty,

etc. make a presentation in jan. i spoke to mike and he will include refuting the 2 letters from FAA that Simmonds

is waving around. We have the votes to direct marty to engage DuFresne to review and formalize Rafferty and

Marble's plan... this will occur at the jan. 8 meeting unless moore cops out. i think i heard Simmonds say maybe

the sunshine laws should be looked at re: 2 AABd members serving on VASI Board. i have a feeling they are going to

give up Carlucci...

We can do that, Actually we already have, as you know, we have written and researched reams of stuff and its all

real- but we can do more. As I see it, the problem is not lack of information, it is lack of a conduit. We have no

way to get anything out. The Airport manager stonewalls, as you know. Reports are
