Re: FDLE Investigation

Mr. Turner,

I spoke with the FDLE Agent in Charge of the Sarasota Office. He advised that they have spoken with the State Attorney's Office and their own legal personnel regarding the tape recorded conversation that Chief Willams reported. It is the opinion of both legal entities that there was no crime committed. This is based on an appellate court decision that stated there is no expectation of privacy when multiple parties are conversing during government actions.

The case has been closed.
